Remaining balance / deficit	NPR -8,000	NPR -17,000

5. Sponsorship Opportunity

The entry fee should not be the only source of funding. A main sponsor and supporting sponsors can help cover prizes, venue, media coverage, trophies, medical support and other event costs. Sponsorship can also allow the organizer to increase production quality without increasing the team entry fee.

Possible Sponsorship	Illustrative Target
Main sponsor	NPR 50,000–100,000
Supporting sponsors	NPR 15,000–25,000 each
Player-of-the-match/award sponsor	NPR 5,000–10,000 each

6. Important Budget Notes

- Venue cost is calculated from the stated rate of NPR 1,000/hour. Confirm whether the venue bills every started hour, because 30-minute matches may still require full-hour payment.
- Referee and official fees are estimates and should be confirmed with local referees/associations.
- The operating budgets are planning estimates, not quotations.
- Keep a contingency reserve for injuries, extra venue time, equipment replacement, transport, security, electricity and unexpected expenses.
- If a third-place match is included, add 30 minutes of playing time plus any required venue/official costs.
- Before registration opens, publish rules on player eligibility, ID verification, substitutions, late arrival, forfeits, cards, protests and tie-breakers.

7. Recommended Planning Direction

The 16-team format is more compact: 31 matches instead of 47, reducing venue time and operational complexity. The 20-team format generates NPR 60,000 more entry revenue and accommodates four additional teams, but it also requires substantially more match time and event management. The final choice should depend on venue availability, expected team demand, sponsor support and the event's desired scale.
